

Apply for Engineering Graduate Opportunities At Fraser Alexander Apprenticeships 2024/2025

Available Apprenticeship Positions (x6)

The programme offers six apprenticeship slots in the following areas:

1. **Auto-Electrical (x2)**
 - **Qualification Requirements:** N3 Engineering Studies with subjects in Pure Mathematics, Engineering Science, Industrial Electronics, and Motor Electrical Theory.
2. **Diesel Mechanic (x2)**
 - **Qualification Requirements:** N3 Engineering Studies with subjects in Pure Mathematics, Engineering Science, Engineering Drawing, and Diesel Trade Theory.
3. **Millwright (x2)**
 - **Qualification Requirements:** N3 Engineering Studies with Pure Mathematics, Engineering Science, Engineering Drawing, Mechotechnology, Electrical Trade Theory/Electrotechnology, and Industrial Electronics.

Minimum Requirements

- **Educational Qualifications:**
 - Completed Grade 12 with a minimum 50% pass in Pure Mathematics and Physical Science; or
 - Completed N3 Engineering Studies relevant to the specified trade.
- **Other Requirements:**
 - Clear criminal record
 - Driver's license
 - Medically certified as fit for work
 - Pass client screening and induction processes

Note: Applicants must not have previously participated in a similar apprenticeship programme.

Key Skills and Attributes

- Effective verbal and written communication skills
- Strong interpersonal abilities

Terms and Conditions

- This position will follow a formal apprenticeship structure, including training and a formal trade test upon completion.

- This opportunity is only open to individuals who meet the specified criteria and have not been enrolled in a similar apprenticeship programme.

Why Apply?

Joining this Artisan Development Programme is an excellent step for recent graduates and students aiming to build a career in engineering and trades. This structured programme provides practical training, industry exposure, and the essential skills required to excel in the auto-electrical, diesel mechanic, and millwright trades.

This apprenticeship programme is more than just a job—it's a stepping stone toward a meaningful and prosperous career in engineering. By meeting the programme's requirements, individuals gain access to specialized training and support in an encouraging environment, building the foundation for long-term success.

Fraser Alexander stands as a leader in mining services, backed by over a century of industry expertise and a strong commitment to innovation, safety, and sustainability. With an unwavering focus on transforming mining waste into valuable resources and fostering positive community impact, Fraser Alexander is dedicated to building a sustainable future for the mining industry. Their presence across multiple countries and diverse services solidify their reputation as a trusted partner in creating long-term economic and environmental benefits.

If you're ready to start a career in the engineering sector and meet the qualifications, apply before the deadline on 5 November 2024.
