

Analytical Chemistry Internship at Sappi

Analytical Chemistry Internship at Sappi

Deadline: 06 January 2025

Location: KwaZulu Natal, South Africa

Analytical Chemistry Internship at Sappi

Sappi is recruiting and accepting applications for Analytical Chemistry Internship programme.

Sappi offers a one-year internship opportunity for recent graduate in Chemistry.

This program provides hands-on, meaningful experience under the guidance of skilled mentors, helping candidates transition smoothly into the professional world.

The main responsibilities of the job:

- Assist with laboratory and pilot plant experiments using Sappi's standard operating procedures.
- Operate bench-top and pilot scale equipment.
- Generate data and conduct basic analysis.
- Report data from experiments and field testing in written reports and presentations.
- Participate in maintenance and troubleshooting of pilot plant equipment.

The ideal candidate must have:

- Grade 12/Matric qualification.
- Diploma (Requiring P1 and P2) or Bachelor's degree in Analytical Chemistry, Chemistry, or a related field.
- No prior experience required.
- Proficient in MS Office (Word, PowerPoint, Excel, Outlook and Teams).

How to apply

To apply, [visit Sappi careers portal](#).

The position is only available until: 06 January 2025

Note: Late and Incomplete applications will not be considered.
